

3M Residential Window Films

{multithumb caption_pos=disabled border_size=1px}

We know you've worked hard and planned long for your home and all of your furnishings. You may have beautiful views through your windows and you love the light they bring into your home, but these same windows can be a source of major problems with sun damage, excessive heat and glare.

Closing your window treatments won't work. Sun damage can occur even if it's cloudy and even when the sun is not shining directly on the window. And when they're closed, there goes your view and the light. There is a Solution!

Solar Tech is a second generation, family owned window tinting company you can trust to enhance the beauty, protection and performance of your most valuable asset- your home. Since 1976 we have been installing high-performance 3M Window Films on homes in your neighborhood!

One simple call to (901) 382-7670 or CLICK and we will schedule a no-pressure, no-obligation quote that is best for your situation.

- Prestige series- window films don't have to be dark or shiny to block heat. Check out 3M's Prestige Series of films for your home.
- Night Vision series- a premium residential film that has excellent performance and low interior reflectivity.
- Fasara decorative film line- for the etched glass or other artful designs that allow light in while providing complete privacy.
- Safety & Security line-provides an additional layer of protection around you home, while blocking harmful UV rays. Also combined with Sun Control films to provide heat rejection, fade reduction and increased privacy.
