

3M Window Films Commercial

For more than 32 years Solar Tech has provided tinting solutions to some of the largest and most prestigious commercial buildings in Memphis. A trusted advisor to building owners, property managers, architects and interior designers, Solar Tech can handle any size job, from a small interior conference room window to a multi-floor tower.

One simple call to (901) 382-7670 or CLICK and we will schedule a no-pressure, no-obligation quote that is best for your situation.

- Sun Control films:

- Prestige series- clear, spectrum-selective films popular with retail stores, QSRs or any building that requires clear vision through the glass without compromise in performance. Simply the best window film available today!

- Night Vision series- Affordable high performance films in a variety of shades to meet most every commercial requirement. Excellent for glare reduction and privacy enhancement too!

- Fasara decorative film line- for the etched glass or other artful designs that allow light in while providing complete privacy.

- Safety & Security line-provides an additional layer of protection around your home, while blocking harmful UV rays. Also combined with Sun Control films to provide heat rejection, fade reduction and increased privacy.

- NEW! DiNoc laminates freshen ALL surfaces. Used to provide a new face lift to walls, cabinets, elevators, fire doors- any surface can be made new with long-lasting, durable 3M DiNoc films.
