

3M DI-NOC Architectural Finishes

{multithumb enable_thumbs=0}

3M® DI-NOC® Architectural Finishes are vinyl films that simulate a variety of natural and synthetic finishes, including wood, granite, marble, stucco, and just about anything else. The detail and textures of DI-NOC® are absolutely incredible! The durability and ease of installation makes DI-NOC® the first choice in commercial remodels or new construction.

One simple call to (901) 382-7670 or CLICK and we will schedule a no-pressure, no-obligation quote that is best for your situation.

- Stunning micro-textures that provide the desired finish in a more convenient, durable easier to install and cost effective format.

- NEW!

3M® DI-NOC® freshens ALL surfaces. Used to provide a new face lift to walls, cabinets, elevators, fire doors- any surface can be made new with long-lasting, durable 3M® DI-NOC® Architectural Finishes.

3M® DI-NOC® transforms a room quickly and cost-effectively

Take a look at how Solar Tech's 3M® DI-NOC® Architectural Finishes Division transformed a dated office break room into an attractive and comfortable updated space. By using existing counters and cabinets, the client saved many thousands of dollars. The results are incredibly attractive, durable and easy to maintain. The fast installation meant less downtime with no dust or odor.
